Dear PGCN Members,

Rabbis Natan Fenner and Jon Sommer from the BAJHC will co-facilitate a discussion involving some challenging case studies and issues that any of us may bring up during the course of the meeting. We also invite you to bring any new inspirational readings, poems, or other materials that you have found helpful in your practice to share with the group.

We will also take some time to think out loud about the services we wish to establish in professional griefcare. What's missing in griefcare services today? What issues have not yet been broached? Whose grief remains invisible? Where do we need to expand our own skills and training to provide the new services we envision?

As always, member introductions and announcements begin at 3:00 pm. Please come on time to announce your programs and to learn about the many grief groups, events, and enriching programs available to caregivers, and for mourners. When you do, it's important to let us know about any changes in your contact information or professional services, so we can keep your listing current in the Members Resource Directory. You can also always bring, or send (for display) any pertinent resources or program descriptions of the griefcare services that you currently provide in your work.

Warm regards,

Pamela Brown  
Program Coordinator  
Bay Area Jewish Healing Center
